## WL-F12V-90-W-3014

High CRI>90

High brightness SMD3014 LED and high quality. Excellent quality and high temperature-proof of PCB. The distance between the leds are narrower than 4mm. The leds couldn't been seen when the led strips work.

|                                                                                                                                                                            |  |                                                                                                                                                             |  |
