**WL-F24V-106-W**

High CRI&gt;90

High brightness SMD3014 LED and high quality. Excellent quality and high temperature-proof of PCB. The distance between the leds are narrower than 4mm. The leds couldn't been seen when the led strips work.

|                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |  |                                                                                                                                                                                                           |  |
